Indicate unit size, lot size, and setbacks on the diagram below. Identify adjacent streets.

These are typical setback requirements:

- Sides: At least 15 feet between mobile homes, including attached structures.
  - Front: At least 10 feet from the tongue to the back of the sidewalk. If there is no sidewalk, then measure to the edge of the pavement.
  - End-to-End: At least 10 feet.
- Perimeter sites must be at least 25 feet away from park boundaries.
